STATEMENT OF WORK

STATEMENT OF WORK PROCUREMENT OF (b) (4) (b) (4) FOR COVID-19

**1.0 <u>SCOPE</u>:** The Contractor, as an independent Contractor and not as an agent of the Government, shall furnish the necessary resources as specified in this Statement of Work (SOW), to manufacture and/or supply (b) (4) for injection.

## 2.0 BACKGROUND:

On Friday, March 13, 2020, the President declared a national emergency concerning the novel coronavirus disease (COVID-19) under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the "Stafford Act).

The mission of the Division of Strategic National Stockpile (DSNS), of the United States (U.S.) Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), is to ensure the availability and rapid deployment of lifesaving pharmaceuticals, antidotes, other medical supplies, and equipment necessary to counter the effects of nerve agents, biological pathogens, and chemical agents. When state, local, tribal, and territorial public health and medical systems request federal assistance to support their response efforts, DSNS ensures the right medicines and supplies get to those who need them most during an emergency. When the vaccine becomes available the Government will have an immediate need to begin vaccinating the entire U.S. population. To administer the vaccine the Government will require hypodermic needles and syringes to be available.

There is an insufficient domestic supply of conventional mixing needles and syringes to meet the projected needs for adjuvanted vaccines to vaccinate the nation's entire population against COVID-19. Should vaccine programs be accelerated, demand could outpace available devices to administer a vaccine.

**3.0** <u>**OBJECTIVE**</u>: The objective of this acquisition is to provide a quantity of (b) (4) to be used for mixing vaccines with adjuvants.

The following have been modified: <u>STATEMENT OF WORK</u>

> STATEMENT OF WORK PROCUREMENT OF (b) (4) (b) (4) FOR COVID-19

**1.0** <u>SCOPE</u>: The Contractor, as an independent Contractor and not as an agent of the Government, shall furnish the necessary resources as specified in this Statement of Work (SOW), to manufacture and/or supply (b) (4) for injection.

## 2.0 BACKGROUND:

On Friday, March 13, 2020, the President declared a national emergency concerning the novel coronavirus disease (COVID-19) under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the "Stafford Act).

The mission of the Division of Strategic National Stockpile (DSNS), of the United States (U.S.) Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), is to ensure the availability and rapid deployment of lifesaving pharmaceuticals, antidotes, other medical supplies, and equipment necessary to counter the effects of nerve agents, biological pathogens, and chemical agents. When state, local, tribal, and territorial public health and medical systems request federal assistance to support their response efforts, DSNS ensures the right medicines and supplies get to those who need them most during an emergency. When the vaccine becomes available the Government will have an immediate need to begin vaccinating the entire U.S. population. To administer the vaccine the Government will require hypodermic needles and syringes to be available.

There is an insufficient domestic supply of safety mixing needles and syringes to meet the projected needs for adjuvanted vaccines to vaccinate the nation's entire population against COVID-19. Should vaccine programs be accelerated, demand could outpace available devices to administer a vaccine.

3.0 <u>OBJECTIVE</u>: The objective of this acquisition is to provide a quantity of (b) (4)
(b) (4) to be used for mixing vaccines with adjuvants.
