STATEMENT OF WORK

1.0 SCOPE: The Contractor, as an independent Contractor and not as an agent of the Government, shall furnish the necessary resources as specified in this Statement of Work (SOW), to manufacture and/or supply for injection.

2.0 BACKGROUND:

On Friday, March 13, 2020, the President declared a national emergency concerning the novel coronavirus disease (COVID-19) under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act).

The mission of the Division of Strategic National Stockpile (DSNS), of the United States (U.S.) Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), is to ensure the availability and rapid deployment of life-saving pharmaceuticals, antidotes, other medical supplies, and equipment necessary to counter the effects of nerve agents, biological pathogens, and chemical agents. When state, local, tribal, and territorial public health and medical systems request federal assistance to support their response efforts, DSNS ensures the right medicines and supplies get to those who need them most during an emergency. When the vaccine becomes available the Government will have an immediate need to begin vaccinating the entire U.S. population. To administer the vaccine the Government will require hypodermic needles and syringes to be available.

There is an insufficient domestic supply of conventional mixing needles and syringes to meet the projected needs for adjuvanted vaccines to vaccinate the nation’s entire population against COVID-19. Should vaccine programs be accelerated, demand could outpace available devices to administer a vaccine.

The following have been modified:

STATEMENT OF WORK

PROCUREMENT OF [b](4) FOR COVID-19

1.0 SCOPE: The Contractor, as an independent Contractor and not as an agent of the Government, shall furnish the necessary resources as specified in this Statement of Work (SOW), to manufacture and/or supply [b](4) for injection.

2.0 BACKGROUND:
On Friday, March 13, 2020, the President declared a national emergency concerning the novel coronavirus disease (COVID-19) under section 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act).

The mission of the Division of Strategic National Stockpile (DSNS), of the United States (U.S.) Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR), is to ensure the availability and rapid deployment of life-saving pharmaceuticals, antidotes, other medical supplies, and equipment necessary to counter the effects of nerve agents, biological pathogens, and chemical agents. When state, local, tribal, and territorial public health and medical systems request federal assistance to support their response efforts, DSNS ensures the right medicines and supplies get to those who need them most during an emergency. When the vaccine becomes available the Government will have an immediate need to begin vaccinating the entire U.S. population. To administer the vaccine the Government will require hypodermic needles and syringes to be available.

There is an insufficient domestic supply of safety mixing needles and syringes to meet the projected needs for adjuvanted vaccines to vaccinate the nation’s entire population against COVID-19. Should vaccine programs be accelerated, demand could outpace available devices to administer a vaccine.

3.0 OBJECTIVE: The objective of this acquisition is to provide a quantity of [b](4) to be used for mixing vaccines with adjuvants.

4.0 REQUIREMENTS:

4.1. General:

4.1.1. The Contractor shall “host” a Kick-Off Meeting within five (5) calendar days after contract award via teleconference. The Contractor shall provide Meeting Minutes containing a detailed overview of the meeting discussions in accordance with (IAW) Contract Data Requirements List (CDRL) A001.

4.1.1.1. The Contractor shall provide a Certificate of Analysis with each shipment per the DD Form 1423, Contract Data Requirements List (CDRL) A002, confirming the supplies described below meet the Performance Specifications in paragraph 4.2 below.

4.1.2. The Contractor shall provide copies of 510(k) Clearance Letters for ALL applicable supplies (dispensing syringes or needles) to demonstrate compliance with Section 510(k) of the Food, Drug and Cosmetic Act as part of their proposal. The Contractor shall provide, as applicable, 510(k) Revised Clearance Letters in the event that any information from the initial 510(k) Clearance Letter is either changed updated.

4.1.2.1. The Contractor shall ensure all supplies have a “Shelf-Life” with expiration dates of no less than five (5) years from the date of sterilization, and must have at least four (4) years of remaining expiry from the time of shipment.
4.1.2.1.2. The Contractor shall only use Current Good Manufacturing Practice (cGMP) processes to manufacture the needles and syringes.
