Executive Summary

Background:

The Department of Health and Human Services (DHHS) continuously monitors emerging infectious disease risk and prepares to respond to the threat of novel emerging infectious disease outbreaks in the United States. DHHS is responding to an outbreak of respiratory disease caused by a novel coronavirus that was first detected in China and which has now spread to worldwide, including in the United States. The virus has been named SARS-CoV-2 and the disease it causes has been named coronavirus disease 2019 (abbreviated COVID-19).

On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization (WHO) declared the outbreak a public health emergency of international concern (PHEIC). On January 31, Health and Human Services Secretary Alex M. Azar II declared a public health emergency (PHE) for the United States to aid the nations healthcare community in responding to COVID-19. On March 11, WHO publicly characterized COVID-19 as a pandemic. On March 13, the President of the United States declared the COVID-19 outbreak a national emergency. Vaccination is often the most effective measure for the control of infectious diseases. In July 2020, the DOD awarded an Other Transaction Agreement under the authority 10 USC 2371b to Pfizer to scale up manufacture of their BNT162b2 vaccine candidate. The candidate entered Phase 3 clinical trials and scale up of their manufacturing processes. On November 9, 2020, Pfizer announced that BNT162b2 was >90% effective based on interim analysis of partial data from their Phase 3 clinical trial. On November 18, 2020, Pfizer reported 95% effectiveness based on analysis of a larger dataset that included 170 confirmed cases among the Phase 3 volunteers (162 in the placebo group and 8 in the vaccinated group). Based on the strength of this data, Pfizer formally requested Emergency Use Authorization (EUA) from the US Food and Drug Administration.

1. This action has a total Firm Fixed Price value of \$10,016,418,500 inclusive of all options. At this time, CLINS 0001, 0002, and 0003 are funded in the amount of \$2,011,282,500.
2. The Representations and Certifications made by Pfizer in the System for Award Management (SAM) are hereby incorporated into this contract by reference.
3. The Pfizer Small Business Subcontracting Plan, dated 01 March 2020 is hereby incorporated into the contract (see Attachment 0002).

**DESCRIPTION/SPECIFICATIONS/WORK STATEMENT
STATEMENT OF WORK**

Production of COVID-19 BNT162b2 Vaccine in Support of National Emergency Response to Coronavirus 2019 (COVID-19)

C.1 Scope: The Department of Defense (DOD) and Department of Health and Human Services (DHHS) in support of national emergency response to the Coronavirus Disease 2019 (COVID-19) requires the production of Pfizer vaccine BNT162b2 on a commercial item basis, up to 500 million doses to inoculate members of the DOD and the general population from the SARS CoV-2 Virus.

C.1.1 Background: The DHHS continuously monitors emerging infectious disease risk and prepares to respond to the threat of novel emerging infectious disease outbreaks in the United States. DHHS is responding to an outbreak of respiratory disease caused by a novel coronavirus that was first detected in China and which has now spread worldwide, including in the United States. The virus has been named SARS-CoV-2 and the disease it causes has been named coronavirus disease 2019 (abbreviated COVID-19).

On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization (WHO) declared the outbreak a public health emergency of international concern (PHEIC). On January 31, the Health and Human Services Secretary declared a public health emergency (PHE) for the United States to aid the nations healthcare community in responding to COVID-19. On March 11, WHO publicly characterized COVID-19 as a pandemic. On March 13, the President of the United States declared the COVID-19 outbreak a national emergency. Vaccination is often the most effective measure for the control of infectious diseases.

In July 2020, the DOD awarded an Other Transaction Agreement under the authority 10 USC 2371b to Pfizer to scale up manufacture of their BNT162b2 vaccine candidate. The candidate entered Phase 3 clinical trials and scale up of their manufacturing processes. On November 9, 2020, Pfizer announced that BNT162b2 was >90% effective based on interim analysis of partial data from their Phase 3 clinical trial. On November 18, 2020, Pfizer reported 95% effectiveness based on analysis of a larger dataset that included 170 confirmed cases among the Phase 3 volunteers (162 in the placebo group and 8 in the vaccinated group). Based on the strength of this data, Pfizer formally requested Emergency Use Authorization (EUA) from the US Food and Drug Administration.

As part of DHHS preparedness and response activities, DHHS seeks to purchase 500M doses of the EUA authorized (or Biologics License Application (BLA) approved) BNT162b2 vaccine, enough to vaccinate the entire American population.

C.2 Objectives: The contractor shall produce up to 500M doses of vaccine under the following schedule:
Base Quantity 100M doses. Pfizer shall make best effort to deliver the 100M doses by 30 June 2021, but shall be required to deliver no less than 70M doses by 30 June 2021, (b) (4)

If Pfizer is unable to deliver 100M doses by 30 June 2021, Pfizer will deliver the balance of doses no later than 31 July 2021.

Options 1 through 16 25M doses each. (b) (4)

C.3 Requirements:

C.3.1 Vaccine: The contractor shall deliver to Government designated sites, EUA authorized (or BLA approved) drug product in temperature controlled (BNT162b2) Suspension for Intramuscular injection Multiple Dose Vials. The Contractor shall be liable for risk of loss due to breakage, temperature excursion, or other, until Government formally accepts the product on site (FOB Destination). The contractor will coordinate ordering through centralized distribution via the established BARDA Data Infrastructure (BDI) system.

C.3.2 Diluent: The contractor shall ensure delivery, either concurrent with or in advance of the vaccine, of FDA approved diluent in sufficient quantities to dilute the number of vaccine doses to be delivered.

The contractor will coordinate ordering through centralized distribution via the established BDI system. For clarity, the Government has retained McKesson to source all of the components needed to support preparation of kits for the mixing and administration of the vaccine; however, Pfizer will: (i) source the diluent for such kits and pay for the delivery of such diluent to McKesson; (ii) pay McKesson for the labor required of McKesson to assemble and pack the diluent into the kits; and (iii) pay McKesson to ship the kits to the ship-to locations specified by the Government.

The Government acknowledges that other than the diluent provided by Pfizer, any and all other items included in the kits are not being supplied or otherwise provided by or on behalf of Pfizer and are neither the property nor the responsibility of Pfizer. Other than diluent, Pfizer will not provide any other ancillary items under this contract, including, but not limited to, syringes, needles, alcohol swabs, and/or personal protective equipment. Further, the Government acknowledges that Pfizers responsibility for provision of diluent will cease upon acceptance of delivery by the ship-to location specified by the Government.

C.3.3 RESERVED

Name of Offeror or Contractor: PFIZER INC.

C.4 Reporting: The contractor shall provide the following reports:

C.4.1 Shipping Documentation Finished Drug Product. The contractor shall provide all documentation required for Government review of vaccine lot release prior to shipment. Specifically, (b) (4)

C.4.2 FDA Interactions and Inspections Documentation. Pfizer shall provide the Government (b) (4) of receipt any FDA Form 483, Establishment Inspection Report (EIR), regulatory authorization or approval-related letter and/or warning or untitled letter (b) (4) including status of Emergency Use Authorization and/or Biologics License Application approval.

C.4.3 Manufacturing Reports and Dose Tracking Projections/Actuals aligned with the BARDA Data Infrastructure. Pfizer shall provide Dose Tracker Projections (Weekly) (b) (4) - once performance under one or more supply CLINs has begun) utilizing the COVID-19 Dose Tracking US HHS, ASPR/BARDA Template version 2.2 (9/21/2020) format. Any changes to the format must be mutually agreed by the parties.

C.5. INTENTIONALLY LEFT BLANK

C.6 Inspection/Acceptance:

For avoidance of doubt, the Government and Pfizer acknowledge that the Government cannot direct Pfizer to deliver and Pfizer cannot deliver to ship-to locations in the absence of an active EUA or approved BLA.

(b) (4)

C.7 Packaging and Marking: The contractor shall label product according to FDA guidance/instructions. Packaging shall be in accordance with the contractor's standard commercial practice.

Shipping

The cost of shipping product within the United States (defined for purposes of this clause to include CONUS, Puerto Rico, Alaska and Hawaii) is included within the contract price for vaccine and diluent. For shipments to U.S. Territories other than Puerto Rico, (inclusive of American Samoa, Guam, Marshall Islands, Northern Mariana Islands, U.S. Virgin Islands), Pfizer will cover shipment costs for one weekly shipment each of diluent and vaccine to each Territory on a standard commercial carrier. For Palau and Micronesia, for which commercial delivery is less frequent or only available on an ad hoc basis, Pfizer will cover commercial delivery as available not to exceed once per week. Import duties associated with all shipments outside of the United States (b) (4).

All product required for U.S. installations overseas will be shipped to and accepted by the Government at Department of Defense Activity Address Codes (DoDAACs) within the continental United States, with any exceptions requiring mutual agreement by the Government and Pfizer. Shipments to locations not included here will be handled on a case-by-case basis.

The Government acknowledges that Pfizer is deemed to have met the deliverables identified in this Section Deliveries or Performance of this contract in performance of prototype agreement MCDC2011-003. Pfizer commits to maintain these deliverables during performance of this contract. Should Pfizer implement any material changes relevant to these deliverables during contract performance, it shall provide notice to the Government within 30 calendar days.

I. Supply Chain Resiliency Plan

The contractor shall develop and submit within forty-five (45) calendar days of contract award, a comprehensive Supply Chain Resiliency Program that provides identification and reporting of critical components associated with the secure supply of drug substance, drug product, and work-in-process through to finished goods.

a) A critical component is defined as any material that is essential to the product or the manufacturing process associated with that product. Included in the definition are consumables and disposables associated with manufacturing. NOT included in the definition are facility and capital equipment.

Consideration of critical components includes the evaluation and potential impact of raw materials, excipients, active ingredients, substances, pieces, parts, software, firmware, labeling, assembly, testing, analytical and environmental componentry, reagents, or utility materials which are used in the manufacturing of a drug, cell banks, seed stocks, devices and key processing components and equipment. A clear example of a critical component is one where a sole supplier is utilized.

The contractor shall identify key equipment suppliers, their locations, local resources, and the associated control processes at the time of award. The Supply Chain Resiliency Plan shall address planning and scheduling for active pharmaceutical ingredients, upstream, downstream, component assembly, finished drug product and delivery events as necessary for the delivery of product.

a) Communication for these requirements shall be updated as part of an annual review, or as necessary, as part of regular contractual communications.

b) For upstream and downstream processing, both single-use and re-usable in-place processing equipment, and manufacturing disposables also shall be addressed. For finished goods, the inspection, labeling, packaging, and associated machinery shall be addressed taking into account capacity capabilities.

c) The focus on the aspects of resiliency shall be on critical components and aspects of complying with the contractual delivery schedule. Delivery methods shall be addressed, inclusive of items that are foreign-sourced, both high and low volume, which would significantly affect throughput and adherence to the contractually agreed deliveries.

The contractor shall articulate in the plan, the contractors methodology for inventory control, production planning, scheduling processes and ordering mechanisms, as part of those agreed deliveries.

a) Production rates and lead times shall be understood and communicated to the Contracting Officer or the Contracting Officer's Representative as necessary.

b) Production throughput critical constraints should be well understood by activity and by design, and communicated to contractual personnel. As necessary, communication should focus on identification, exploitation, elevation, and secondary constraints of throughput, as appropriate.

Reports for critical items should include the following information:

Documents shall be provided within ten (10) calendar days after Contracting Officer issues the request. The Contractor may arrange for additional time if deemed necessary, and agreed to by the Contracting Officer.

II. Manufacturing Data Requirements

The Contractor shall submit within thirty (30) calendar days of contract award detailed data regarding project materials, sources, and manufacturing sites, including but not limited to: physical locations of sources of raw and processed material by type of material; location and nature of work performed at manufacturing, processing, and fill/finish sites; and location and nature of clinical studies sites (it being understood that such information already has been provided). The Government may provide a table in tabular format for Contractor to be used to submit such data which would include but not be limited to the following:

HEALTH RESOURCE PRIORITY AND ALLOCATIONS SYSTEM (HRPAS)

In order to ensure the success of Pfizer's efforts, a priority rating is incorporated into the contract for the procurement of raw materials, consumables, repair parts, and major end item assemblies by Pfizer under Title I of the HRPAS.

Priority Rating: Defense Production Act (DPA) Title I DO-HR

Each rated order executed by Pfizer must include the following:

- (a) The priority rating: DPA Title I DO-HR;
- (b) A required delivery date or dates. The words immediately or as soon as possible do not constitute a delivery date;
- (c) The written signature on a manually placed order, or the digital signature or name on an electronically placed order, of an individual authorized to sign rated orders for the person placing the order; and
- (d) A statement that reads in substance:

(1) This is a rated order certified for national defense use, and you are required to follow all the provisions of the Health Resources Priorities and Allocations System regulation at 45 CFR part 101.

(2) If the rated order is placed in support of emergency preparedness requirements and expedited action is necessary and appropriate to meet these requirements, the following sentences should be added following the statement set forth in paragraph (d)(1) of this section:

(i) This rated order is placed for the purpose of emergency preparedness. It must be accepted or rejected within two (2) days after receipt of the order if:

- A. The order is issued in response to a hazard that has occurred; or

(b) (4) [Redacted]

Addendum to FAR 52.212-4(p): The following language is hereby incorporated into clause FAR 52.212-4, Terms and Conditions - Commercial Items, subparagraph (p), Limitation of Liability:

In addition to the protections afforded under the PREP Act discussed above, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items. Except for Pfizers obligation to pay any amounts that become due and payable to McKesson by Pfizer pursuant to the terms of the Pfizer/McKesson agreement governing the kits, Pfizer shall have no liability whatsoever for any action or failure by McKesson to assemble, ship, or otherwise deliver kits. Pfizer will, however, retain risk of physical loss of diluent provided to McKesson until the ship-to site accepts delivery of the kit, and, in the event of any such loss, will provide an equal number of replacement vials of diluent to McKesson for kitting at no additional cost to the Government. The Government agrees and acknowledges that the kits and their components (including, without limitation, the diluent) will be used to enable administration of the vaccine. It is expected that the ship-to sites will contact McKessons customer service in the event that a ship-to site receives a kit that is defective, damaged, or if there is a shortage in the number of kits received.

(b) (4) [Redacted]

The following language is added as addenda to FAR 52.212-4:

Excusable Delays Due to COVID-19

The parties recognize that the global pandemic caused by COVID-19 has had a significant impact on the availability of certain suppliers and other resources necessary to produce certain pharmaceutical and related products, including the diluent. Accordingly, notwithstanding any provision to the contrary herein, the Contractor shall not be liable for default if nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, as contemplated in FAR 52.212-4(f). For avoidance of doubt, occurrences beyond the reasonable control of the Contractor and without its fault or negligence also include supply chain disruptions arising from or related to the COVID-19 pandemic and the availability of materials for performance of this Contract. In the event of an excusable delay caused by a supply chain disruption arising from or related to the COVID-19 pandemic and the availability of materials for performance of this Contract, Contractor shall follow the procedures at FAR 52.212-4(f).

(b) (4) [Redacted]

Controlled Unclassified Information (CUI)

To the extent there is CUI delivered under the contract, it will be (1) clearly labeled by the Government and (2) sent only to a designated secure reading room for which Pfizer will provide the Government with instructions and contact information. Additionally, CUI obtained will only be within limited categories, agreed by the parties prior to any exchange of CUI under the agreement, and under no circumstances will ITAR export-controlled information be provided to Pfizer. Pfizer shall handle CUI in accordance with company practice applied to commercial confidential information. For purposes of this contract, handling of CUI in accordance with Contractor practice is deemed to satisfy the requirements of DFARS 252.204-7012.

The Government may not use, or authorize the use of, any products or materials provided under this Agreement or that are provided in connection with the administration of the Pfizer vaccine, unless such use occurs in the United States (or a U.S. territory where U.S. law applies including, but not limited to, embassies, military installations and NATO installations) and is protected from liability under a declaration issued under the PREP Act, or a successor COVID-19 PREP Act declaration of equal or greater scope. Any use where the application of the PREP Act is in question will be discussed with Pfizer prior to use and, if the Parties disagree on such use, the dispute will be resolved according to FAR 52.212-4(d).

Government Program Pricing

The price per dose in this contract was established per Operation Warp Speed and in light of the COVID-19 pandemic, and thus is specific to this contract only. SMALL BUSINESS SUBCONTRACTING PLAN

(Model Outline* – Template Revised 4/1/2019)

* This template is a **suggested** model for use when formulating a subcontracting plan pursuant to the requirements at FAR 52.219-9(d). While this model plan has been designed to be consistent with FAR 52.219-9, other formats may be acceptable. However, failure to include the essential information as set forth in this model may be cause for either a delay in acceptance or the rejection of an offer where the clause is applicable. Further, the use of this model is not intended to waive other requirements that may be applicable under FAR 52.219-9 or that may appear in the Government’s solicitation. "SUBCONTRACT," as used in 52.219-9, **refers to your external company spend**, meaning any agreement (other than one involving an employer-employee relationship) entered into by a federal government prime contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

SUBCONTRACTING PLAN PERIOD: January 1, 2020 – December 31, 2020

Individual plans should cover the entire period of performance, and **commercial plans should coincide with the company’s fiscal year**. In the event your company's fiscal year is for a period that will end before the contract periods of any federal contracts you hold which include the requirement to have a small business subcontracting plan, **you will be required to submit a new subcontracting plan for approval thirty (30) days prior to expiration of the existing subcontracting plan**. In the event an acceptable plan cannot be negotiated prior to expiration of the existing subcontracting plan, your contract(s) may be terminated.
