## Licensing Process

The following information, in general, reflects the process for applying for a license to an HHS invention.

### STEP 1 – Identify Technologies

- Use the *Find Technologies* section at the right of the webpage screen to search for and view abstracts describing HHS technologies available for licensing.

### STEP 2 – Contact a Licensing & Patenting Manager

- If you require additional information after viewing technology abstracts, please contact the individual named at the end of each abstract.

### STEP 3 – Complete and Submit a License Application

- The NIH Application for License is available for downloading at [/resources](#).
- Submit the completed form to the Licensing & Patenting Manager, consulting with her/him if you have questions. This individual will contact you after their review of your application.

### STEP 4 – Review Model Agreement and Negotiate Terms

- Model agreements are available for downloading at [/resources](#).
- Consult with the Licensing & Patenting Manager if you have questions. This individual will typically prepare the first draft of your agreement.

### STEP 5 – Receive the Completed License Agreement

- After execution, a Royalties Coordinator will contact you with the Welcome Package that includes an invoice and a copy of the executed license.
- If tangible materials were licensed, the materials will be shipped after payment is confirmed.

## Find Technologies

### Description

To find any text within the description of the invention.

### NIH OTT Ref. No. (aka E. no.)

Any part of the E#. e.g. entering "123" will search for E-123-1012, E-123-2013, etc.

### Inventor's Last Name

### Disease Area

### Application

### Development Stage

### Technology

### Agency/Institute

### Collaboration Sought
