

13th WTO Ministerial Conference - Abu Dhabi
Statement of Colombia on non violation complaints

Thank you President, Minister Al Thani,

Before we start, we want to table an agenda item in the negotiations for which we all came prepared since the first versions of the agenda, I refer to non violation complaints under the TRIPS Agreement. The practice suggested by the president of the council, Ambassador Pimchanok, must be maintained. This point should be part of the "Ministers' Actions" at this meeting. So unless someone objects, we understand that the intellectual property moratorium is extended.
